# KING CRAB

## Red King Crab: Fit for Royalty

Our colossal Red King Crab is the most prized crab in the world. Harvested in the purest currents of icy, arctic waters, our artisan crab is highly coveted for its size, richness and firm texture. We guarantee first-rate product, caught using the best methods available to prevent by-catch and protect the ecosystem.

Our Red King Crab can weigh more than 20 pounds and measure five feet across. There are no imitations for its snow-white meat bursting with flavor. Because of worldwide demand for this splendid crab, we adhere to the strictest environmental guidelines and take every precaution to ensure 100 percent traceability and documentation from seafloor to your door.

Backed by decades of experience, we manage our process according to size, sex and season and carefully select the right method and

tools for the job to minimize our impact and ensure the purest catch for you. Call us today to try the finest premium crab available.
